

STUCK WITH DESIGN PROBLEMS FOR YOUR BUSINESS ?

Design roadblocks? Yeah, we eat those for breakfast. We're Naqsh-e-Kala Studio, and we're pretty darn good at turning design 'uh-ohs' into 'oh-wows.'

Think of us as your brand's personal design superheroes, minus the capes (we prefer comfy chairs).

We're here to make your business look good, honestly, we're having a blast doing it.

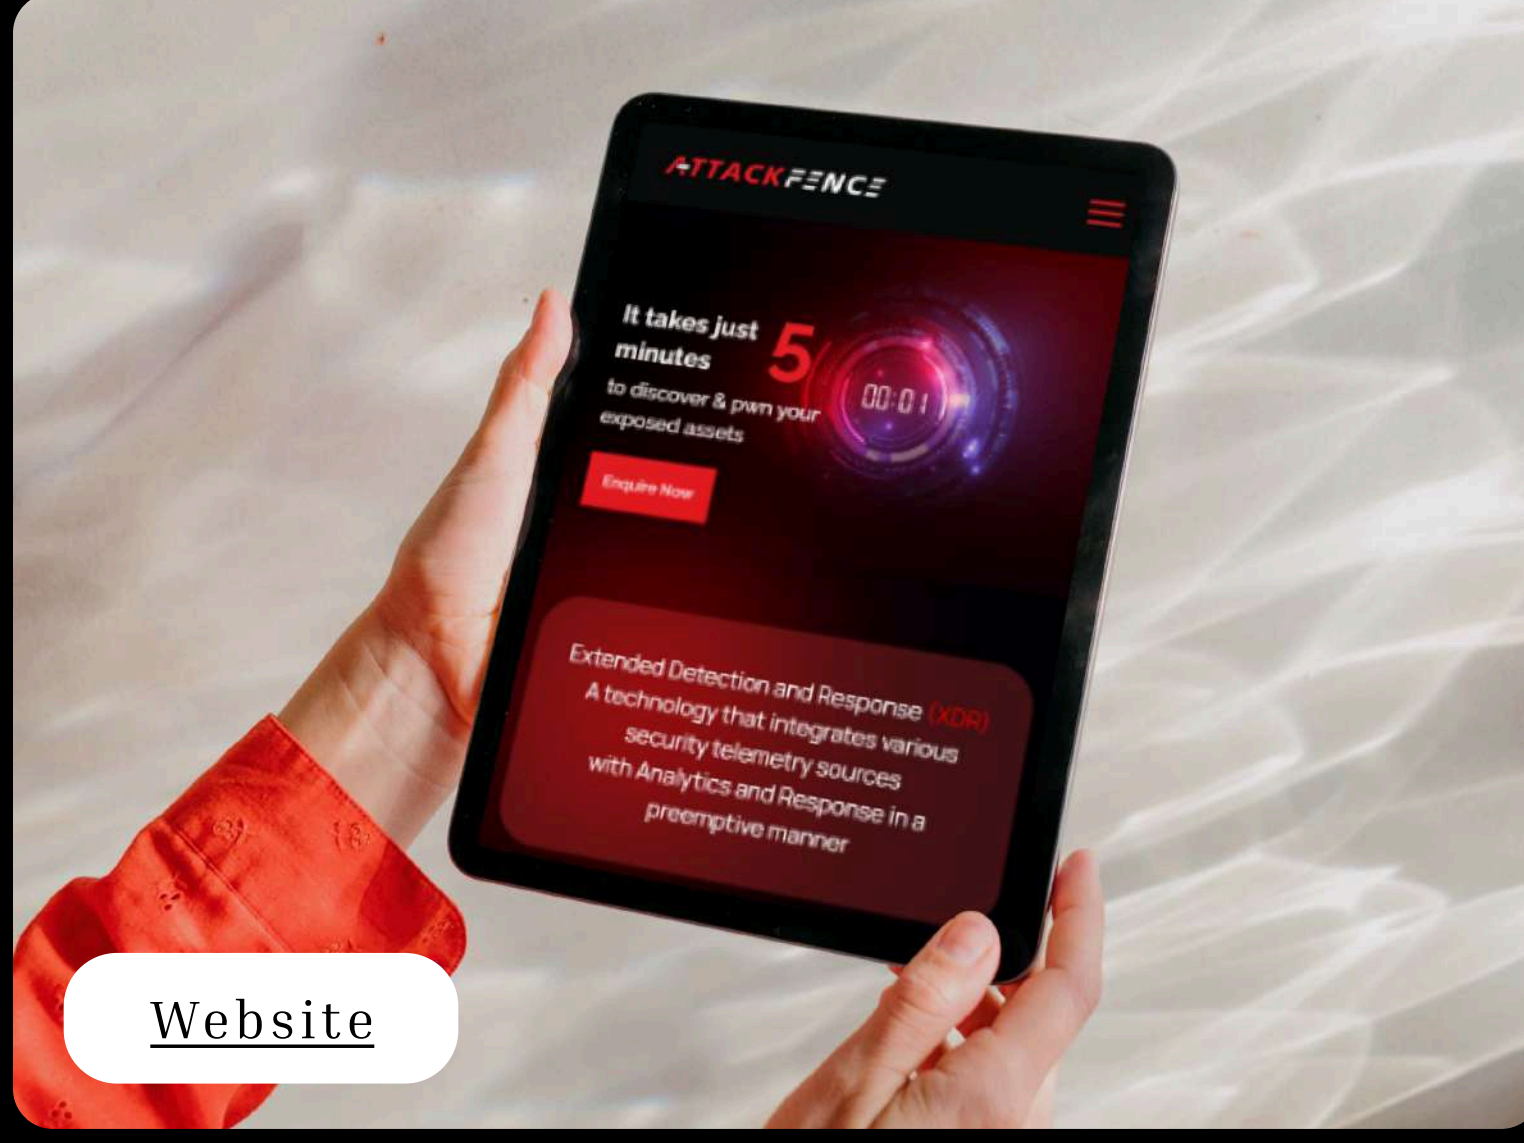

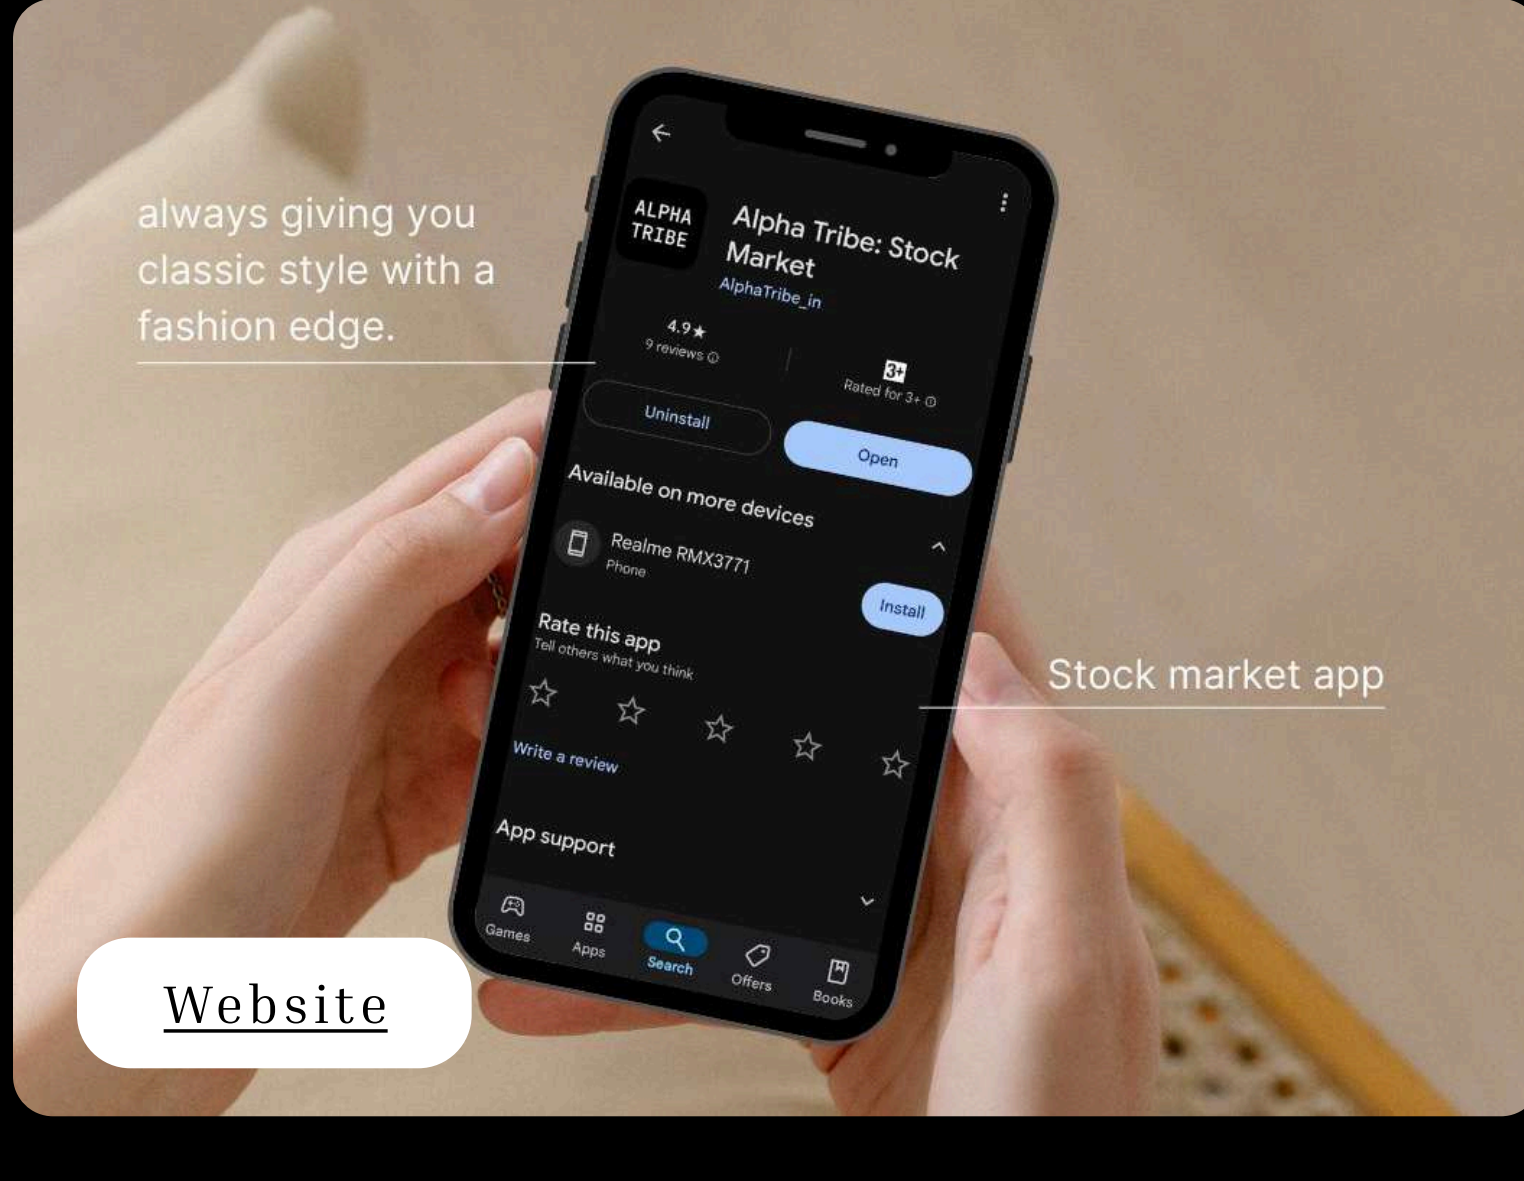

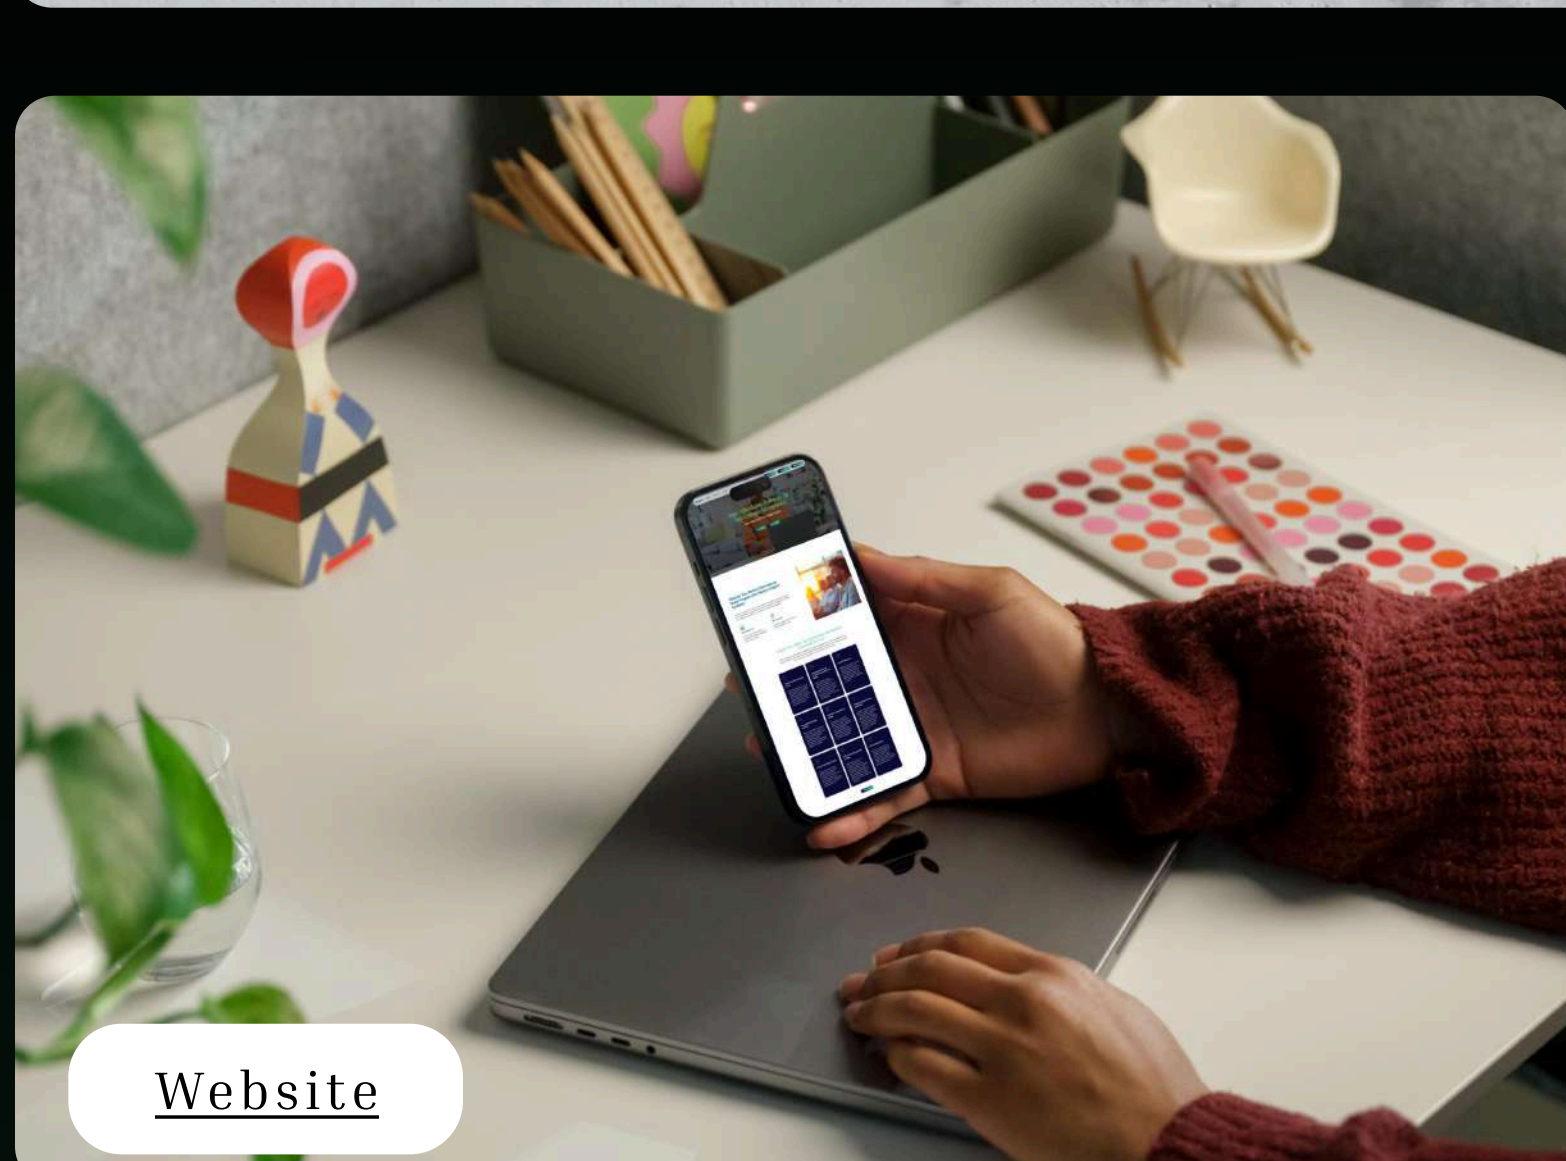

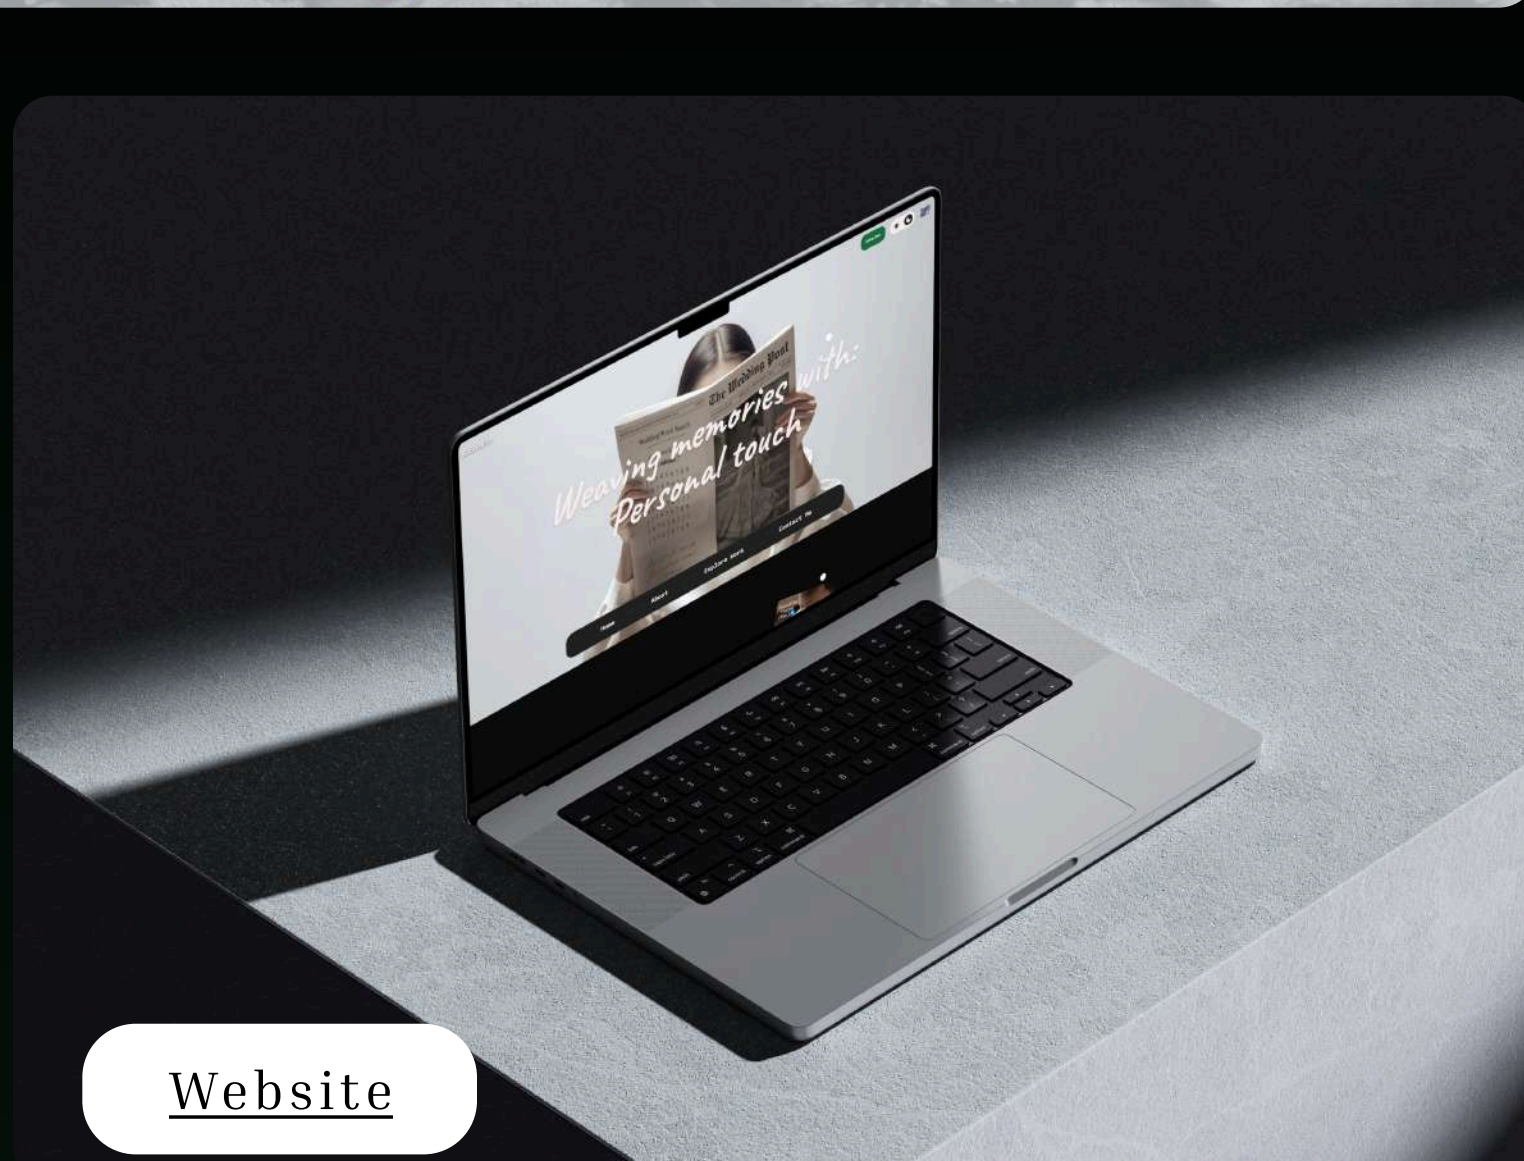

We're not going to bore you with design jargon or make you feel like you need a design degree. We keep it real, keep it fun, and keep it effective. If your brand needs a little (or a lot) of design love, we're your people.

Let's ditch the design drama and get down to creating something you'll actually love showing off. Because, hey, good design shouldn't be a mystery, it should be a party!
